DIE MARKS MUST PRINT ON REVERSE

- Please follow the exact die lines. It is important to keep the scale at 100%.
 - It is essential that the grain run in the direction specified.
 - The position of the envelope may occur in the die cutting process. For best results, follow our layout.
 - Minor variations may occur in the die cutting and folding process. Designs with bleeds must wrap 1/8" around to back.
 - Envelope machines may not be suitable for solid coverage or bleeds. Designs with bleeds must wrap 1/8" around to back.
 - If you are running a full flood, please add gripper and color bar dimensions to the sheet size.
 - Please mark your guide and gripper. Make sure that the stock is jogged.
 - Knockout areas must be free of inks and varnishes otherwise glue or gum may fail.
 - Please call if you require a special layout for knockouts.
- Thank you.
